# INSPIRATION

---

ZIPPORAA has a refined aesthetic of nature, boldness, lines, shapes, structure and asymmetrical forms. The collection has a subjective perspective, expressing a classic couture concept with an emotional experience. The Collection is inspired by an art movement at the beginning of the 20th century, which extend across visual arts, and architecture known as Expressionism. A redefine of fashion reimaged, unusual in shapes and color making the designs a true wonder to the eyes.

The Silhouettes are entirely hand made by a team of specialized European Artisans.
